⇒R. 4

## **HOLLOW STRUCTURAL SECTIONS EXPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA, THE REPUBLIC OF KOREA, MALAYSIA AND TAIWAN**

### Measures

Anti-dumping measures in the form of dumping securities have been imposed on hollow structural sections (HSS) exported from the Peoples Republic of China (China), the Republic of Korea (Korea), Malaysia and Taiwan.

### Description of the goods

The goods covered by measures are certain electric resistance welded pipe and tube made of carbon steel, comprising circular or non-circular hollow sections:

- normally referred to as either CHS (circular hollow sections) or RHS (rectangular or square hollow sections), collectively referred to as hollow structural sections (HSS);
- of all finish types, including:
  - galvanised (including in-line galvanised (ILG), pre-galvanised or hot-dipped galvanised (HDG)); or
  - non-galvanised (including, but not restricted to, painted, black, lacquered or oiled finishes);
- in the following sizes:
  - for circular products – outside diameter exceeding 21 mm up to and including 165.1 mm; or
  - for oval, square and rectangular products – perimeter up to and including 1227.3 mm;
- generally produced to:
  - British Standard BS 1387; or
  - Australian Standard AS 1163; or
  - international equivalent standards, including ASTM/JIS and KS;
- that may also be categorised according to minimum yield strength, the most common classifications being 250 and 350 mega Pascals (MPa);
- that may also be referred to as extra-light, light, medium or extra heavy, according to wall thickness; and
- including CHS with other than plain ends, such as threaded, swaged and shouldered..

### Identifying the goods subject to measures

For clarification, the goods subject to the measures include all electric resistance welded pipe and tube made of carbon steel meeting the above description of the goods, regardless of whether or not the pipe or tube meets a specific structural standard or is used in structural applications with the exception of the following categories, which are excluded from the goods subject of the application:

- conveyor tube (made for high speed idler rolls on conveyor systems with inner and outer fin protrusions removed by scarfing (not exceeding 0.1 mm on outer surface and 0.25 mm on inner surface); and out of round standards (i.e. ovality) which do not exceed 0.6 mm in order to maintain vibration free rotation and minimum wind noise during operation);
- precision RHS with a nominal thickness of less than 1.6 mm, and
- air heater tubes to AS 2556.

Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes contained in Table 1.

**Table 1 - The tariff subheadings and statistical codes subject to measures**

<b>Tariff subheading</b>	<b>Statistical codes</b>
7306.30.00	31, 32, 33, 34, 35, 36, 37
7306.61.00	21, 22, 25
7306.69.00	10

⇒All exporters from China, Korea, Malaysia and Taiwan are subject to anti-dumping securities as advised in Table 2. As advised in ACDN 2012/01, Dalian Steelforce Hi-Tech Co Ltd and Zhejiang Kingland Pipeline & Technologies Co Ltd have a zero rate of dumping securities and have been included in Table 2 for convenient administration of the anti-dumping securities and not otherwise.

## **HOLLOW STRUCTURAL SECTIONS**

### **EXPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA, THE REPUBLIC OF KOREA, MALAYSIA AND TAIWAN**

#### Dates of Effect

Anti-dumping measures were initially imposed on 10 January 2012. Australian Customs Dumping Notice (ACDN) 2011/62 and ACDN 2012/01 provide further information to assist importers and Customs brokers.

#### Direction for collection of interim dumping and interim countervailing duties

Goods subject to the measures must be entered using the relevant dumping specification number (DSN) for the nominated exporter/supplier as shown in Table 2.

The amount of dumping security payable for goods entered against a specific DSN from Table 2 shall be:

- the dumping export price (DXP) multiplied by the dumping security ad valorem rate for each DSN shown in Table 3.

The DXP is to be expressed in FOB Cash terms.

#### Release of details of measures

Unless otherwise advised, the dumping security ad valorem rates in Table 3 are considered Confidential and will not be generally published or provided.

Bona fide importers of the goods may be provided with the confidential information relevant to a nominated exporter or country. Unless an importer is able to demonstrate a trading history with an exporter, confidential information relevant to an exporter or country will not be provided.

Where no prior pattern of imports exists, evidence of an offer or quotation from an exporter in China, Korea, Malaysia or Taiwan is considered the minimum requirement before confidential information relevant to that exporter may be disclosed. The offer or quotation must be on the exporter's letterhead – emails will not generally be an acceptable form of evidence.

Customs and Border Protection will conduct monitoring of imports consistent with its published policy.
