

AUSTRALIAN CUSTOMS DUMPING NOTICE NO 2010/13

**CERTAIN ALUMINIUM EXTRUSIONS EXPORTED TO AUSTRALIA FROM
THE PEOPLE'S REPUBLIC OF CHINA**

Revision to level of securities

Customs Act 1901 (Cth) – Part XV B

On 24 June 2009 the Chief Executive Officer of Customs and Border Protection (CEO) initiated an investigation into the alleged dumping and subsidisation of certain aluminium extrusions exported to Australia from the People's Republic of China (China). The investigation was initiated following an application lodged by Capral Limited (Capral) on behalf of the Australian industry producing like goods.

Public notification of initiation of the investigation was made on 24 June 2009 in *The Australian* newspaper and by Australian Customs Dumping Notice (ACDN) 2009/20 which also contains additional information regarding the goods.

In accordance with s.269TD of the *Customs Act 1901 (Cth)* the Australian Customs and Border Protection Service (Customs and Border Protection) made a Preliminary Affirmative Determination (PAD) on 3 November 2009 that there appeared to be sufficient grounds for the publication of a dumping duty notice and a countervailing duty notice in respect of the goods exported to Australia from China. In reaching this preliminary decision, Customs and Border Protection was satisfied that the dumped and subsidised goods appear to have caused material injury to the Australian industry producing like goods.

In order to prevent material injury occurring to the Australian industry while the investigation continues, Customs and Border Protection decided to require and take securities in respect of interim dumping duty that may become payable in respect of the goods from China entered for home consumption on or after 6 November 2009. The PAD and decision to impose the securities was advised in ACDN 2009/38 and *The Australian* on 3 November 2009.

Customs and Border Protection has revised the level of securities in respect of interim dumping duty that may become payable in respect of the goods exported from China and entered for home consumption on or after 15 April 2010.

Customs and Border Protection has also decided to require and take securities in respect of interim countervailing duty that may become payable in respect of the goods from China entered for home consumption on or after 15 April 2010.

Bona fide importers requiring details of the revised level of securities should contact the Regional Dumping Liaison Officers.

Inquiries concerning this notice may be directed to the case managers on telephone: 02 6275 6403 or 02 6275 5709 or by email tmops3@customs.gov.au
