CERTAIN TUBELESS STEEL DEMOUNTABLE RIMS – (8.25” x 22.5”) EXPORTED FROM THE PEOPLE’S REPUBLIC OF CHINA

Measures

Anti-dumping measures (measures) in the form of interim dumping duty (IDD) have been imposed on certain tubeless steel demountable rims (steel rims) exported from the People’s Republic of China.

Description of the goods

The goods subject to measures are 8.25” x 22.5” tubeless steel demountable rims.

The goods are primarily used on heavy transport vehicles. Demountable rims are an assembly of a moulded steel rim and a steel adaptor bar. The rim is the outer rounded section to which the tyre is fitted. The steel adaptor bar is a formed band of steel welded to the rim against which the cast wheel or ‘spider’ on the vehicle’s axle mates. The adaptor bar is attached to the rim by means of CO² or submerged arc welding. The typical on-highway load carrying capacity is up to 3,550kg per rim.

Goods subject to measures should be classified using the tariff sub-heading and associated statistical codes contained in Table 1.
