INTRODUCTION

GENERAL

The combined Australian Customs Tariff Nomenclature and Statistical Classification incorporates the *Customs Tariff Act 1995* (Act 147 of 1995), as amended or proposed to be altered from time to time, and the Australian Harmonized Statistical Classification. It provides tariff and statistical information for the Customs entry of goods imported into Australia.

The Australian Tariff is based on the International Convention on the Harmonized Commodity Description and Coding System (HS) to which Australia is a signatory. The Convention provides the Interpretation Rules, Sections, Chapters, headings, 5 and 6 digit subheadings and Notes to Sections and Chapters contained in this publication. To provide for certain national industry assistance requirements, the *Customs Tariff Act 1995* also includes Additional Notes to some Sections and Chapters and national 7 and 8 digit subheadings. Statistical codes are contained in the 9th and 10th digit subdivisions (italics). These codes are introduced and maintained to meet the statistical requirements of users of imports data. Importers and brokers seeking further background on statistical codes should contact the Australian Bureau of Statistics, telephone 02 6252 5409, email [international.trade@abs.gov.au](mailto:international.trade@abs.gov.au).

Although the *Customs Tariff Act 1995* replaces and is similar to the *Customs Tariff Act 1987*, many clauses have been redrafted or relocated to simplify the legislation. The new Act took effect on 1 July 1996.

Classification of goods within the Nomenclature is governed by the legal provisions of the *Customs Tariff Act 1995*, reproduced in this publication in bold type. These provisions also apply to the application of statistical subheadings. Assistance in the interpretation of these provisions may be found in:

- Alphabetical Index to the Harmonized System Nomenclature;
- Explanatory Notes to the Harmonized System Nomenclature;
- Section and Chapter Titles (listed at page 3); and
- Lists of headings at the beginning of each Chapter in Schedule 3.

Schedules 3 and 4 incorporated in this "Working Tariff" are different to the legal Schedules in the following aspects:

- inclusion of unenacted amendments;
- addition of statistical codes;
- addition of rate identifiers (for example, where two or more rates of duty apply to a classification);
- addition of a list of headings at the beginning of each Chapter (for ease of reference); and
- incorporation of nominal reference numbers and Supplementary Provisions.

Note 1: The text in Schedule 3 is based on the wording in the Harmonized Commodity Description and Coding System that is referred to in the International Convention on the Harmonized Commodity Description and Coding System done at Brussels on 14 June 1983.

Note 2: The text of the Convention is set out in Australian Treaty Series 1988 No. 30. In 2006, the text of a Convention in the Australian Treaty Series was accessible through the Australian Treaties Library on the AustLII Internet site ([www.austlii.edu.au](http://www.austlii.edu.au)).

Schedule 5 in the "Working Tariff" reflects the provisions of the *US Free Trade Agreement Implementation (Customs Tariff) Act 2004* (Act No. 121 of 2004) and specifies rates of duty for US originating goods under the Australia-US Free Trade Agreement. The Schedule will include:

- unenacted amendments; and
- the addition of rate identifiers (for example, where two or more rates of duty apply to a classification).

Schedule 6 in the "Working Tariff" reflects the provisions of the *Customs Tariff Amendment (Thailand-Australia Free Trade Agreement Implementation) Act 2004* (Act No. 131 of 2004) and specifies rates of duty for Thai originating goods under the Thailand-Australia Free Trade Agreement. The Schedule will include unenacted amendments.

Schedule 7 in the "Working Tariff" reflects the provisions of the *Customs Tariff Amendment (Australia-Chile Free Trade Agreement Implementation) Act 2008* (Act No. 128 of 2008) and specifies rates of duty for Chilean originating goods under the Australia-Chile Free Trade Agreement. The Schedule will include unenacted amendments.

- ★ Schedule 8 in the "Working Tariff" reflects the provisions of the *Customs Tariff Amendment (ASEAN-Australia-New Zealand Free Trade Agreement Implementation) Act 2009* (Act No. 98 of 2009) and specifies rates of duty for AANZ originating goods under the ASEAN-Australia-New Zealand Free Trade Agreement. The Schedule will include unenacted amendments.

This working document is designed for day to day use in determining tariff classifications and rates of Customs duty, etc., for the purpose of entry of imported goods into Australia.

In completing Customs entry formalities, reference should also be made to other publications including the Schedule of Concessional Instruments, Customs (Prohibited Imports) Regulations, A New Tax System (Goods and Services Tax) Act, A New Tax System (Wine Equalisation Tax) Act and Quarantine Regulations.

Note: The publications listed in paragraphs 4 and 10 above are not necessarily in order of reference.

### APPLICATION OF RATES OF DUTY

### STATISTICAL CODES

Imports information supplied to the Australian Bureau of Statistics (ABS) by the Australian Customs and Border Protection Service is only disclosed as statistical aggregates. However, the aggregates for trade in some commodities may relate to a single person or organisation. The ABS operates under legislation that allows it to release international trade statistics that could relate to a single person or organisation except where that person or organisation has shown that such release would be likely to enable their identification.

If you are concerned about the possible disclosure of confidential information please contact the ABS on 02 6252 5409, email [international.trade@abs.gov.au](mailto:international.trade@abs.gov.au), and your concerns will be investigated.
