

## cpi adjustments – operative on and from 2 February 2009

The Consumer Price Index (CPI) for the December Quarter 2008 was released by the Australian Bureau of Statistics (ABS) on 28 January 2009. That index number is 166.0.

The new rates of customs duty set out below are calculated by multiplying the current rates by an indexation factor. This factor is calculated by dividing the most recent index number by the previous highest December or June index number. Accordingly, the December 2008 index number (166.0) has been divided by the June 2008 index number (164.6) to establish an indexation factor of 1.009.

Note that these rates are also applied to goods subject to indexation in Schedule 5 (US originating goods) and Schedule 6 (Thai originating goods) in the Customs Tariff.

<u>Customs Tariff Subheading</u>	<u>New Rate of Duty Operative from 2 February 2009</u>
2203.00.31	\$69.16/Lal
2203.00.39

2403.99.80	
2402.10.20	\$0.25679/stick
2402.20.20	
2403.10.30	

The new rates will come into effect on and from 2 February 2009. Equivalent changes will also be made to the Excise Tariff on that date. ACN 2009/06 will be published in connection with these changes. It will be available on the Customs website in the near future and will be distributed in hard copy in the week commencing 9 February 2009. Amended tariff working pages will also be distributed in that week.
