

Improving Export Data

Project

8

AUSTRALIAN
CUSTOMS SERVICE

Eight ways to improve export data.

Export data is important to both government and industry.

Use this card to assist in supplying correct information.

Owner's ABN or name:

ABN and CAC to be given if a company or business eg ABN=25489878979001

Consignee name:

Person/company taking final delivery of the goods

Country of destination:

FINAL destination country

Total FOB value:

All costs to the vessel/aircraft excluding international freight and insurance

AHECC code:

8-digit classification code, found within the AHECC, used to classify goods for export (Refer to the AHECC)

Origin code:

Australian State/Territory where goods are made or F (for foreign) (Refer to the AHECC)

Net quantity:

eg KG = kilograms; T = tonnes;
NO = number etc (Refer to the AHECC)

Permit number:

Permit prefix and number where required

These are critical fields, but remember all export entry information is important.

For further information please contact Customs Information Centre on 1300 363 263.
