

## AUSTRALIAN CUSTOMS DUMPING NOTICE NO. 2006/26

---

### A4 insert ring binders exported from Malaysia - expiry of anti-dumping measures

On 28 July 2005 the Australian Customs Service (Customs) published a notice in *The Australian* in relation to the expiry of anti-dumping measures applying to A4 insert ring binders exported from Malaysia. This notice invited those persons as specified at section 269ZHB(1)(b) of the *Customs Act 1901* to apply to Customs for the continuation of the anti-dumping measures by 26 September 2005.

The anti-dumping measures were initially imposed in June 2001 following Ministerial consideration of Trade Measures Report No. 39.

Customs received an application for the continuation of anti-dumping measures from ACCO Australia Pty Ltd and Bantex Pty Ltd and on 19 October 2005 a continuation investigation was initiated. Customs was not satisfied that the expiration of the anti-dumping measures applying to exports of A4 insert ring binders from Malaysia would lead, or be likely to lead, to a continuation of, or a recurrence of, the material injury that the anti-dumping measures are intended to prevent. Accordingly, Customs recommended that the anti-dumping measures expire on the specified expiry date. Customs findings of the investigation are detailed in Trade Measures Report No. 107, which is available on the Customs website at [www.customs.gov.au](http://www.customs.gov.au).

The Minister accepted Customs recommendations and decided not to secure the continuation of the anti-dumping measures applicable to A4 insert ring binders exported from Malaysia. The notice of the Minister's decision was published in *The Australian* and the *Gazette* on 28 April 2006.

As a result, the anti-dumping measures applicable to A4 insert ring binders exported from Malaysia will expire on the specified expiry date of 13 June 2006. Therefore, on and from that day anti-dumping measures will no longer apply.
