

## AUSTRALIAN CUSTOMS DUMPING NOTICE NO. 2006/44

### Pineapple prepared or preserved in containers exported from the People's Republic of China and the Philippines

#### Finding in relation to a dumping investigation

The Minister for Justice and Customs has accepted Customs recommendations in relation to the alleged dumping of:

- pineapple prepared or preserved in containers not exceeding one litre (consumer pineapple) exported to Australia from the Philippines; and
- pineapple prepared or preserved in containers exceeding one litre (food service and industrial (FSI) pineapple) exported to Australia from the People's Republic of China (China) and the Philippines.

In Trade Measures Report no. 112 Customs concluded that:

- exports of consumer pineapple from the Philippines and FSI pineapple from China and the Philippines were at dumped prices;
- the Australian industry producing like goods had suffered material injury as a result of those dumped goods;
- material injury would continue to be caused to Australian industry if the goods from China and the Philippines continue to be exported to Australia at dumped prices.

Customs recommended that anti-dumping action be taken against:

- consumer pineapple exported to Australia from the Philippines; and
- FSI pineapple exported to Australia from China and the Philippines.

Measures will apply from 11 August 2006, which is the date from which Customs determined that securities would be collected for consumer pineapple and FSI pineapple entered for home consumption pursuant to Preliminary Affirmative Determination No. 112. The notice of the Minister's decision was published in the *The Australian* newspaper and *Gazette* on 10 October 2006.
